Giordana has been dressing cyclists for 25 years and is the most widely used clothing label in the Professional Peloton. All Giordana products are exclusively made in Italy. This applies from styling to fabrics, from cutting to packaging, from finishing to deciding even the smallest detail and includes all the technical research work. Giordana was the first to introduce features such as Liquid Elastic grippers and OmniForm shorts' inserts as well as many high-tech fabrics such as MCK, Moovix and Chrono. Giordana is a substantial business that produced more than 1 million items of clothing in 2005 and dressed more than 700 teams (both professional and amateur). Giordana stands for experience you can trust.
